EXPERT PREDICTS AIR ATTACKS BY INVISIBLE PLANES

LONDON—Flying airplanes re-
sembling submarines and penetrating
heights hitherto undreamed of, with
operators encased, springing assaults
which would disable armies and render
cities helpless are predicted by Lieut.
Colonel Eitherton, commander of the
anti-aircraft brigade.

Express Service

Commencing Monday, April 19, I will start a
regular Express Service between Calgary and
Strathmore.

Let me know where your order is placed and
I'll do the rest.

Wm. BLACKWELL

Phone 45,

Strathmore

SPORT NOTES

Sir Thomas Lipton is expected to
issue another challenge for America's
Yachting Club; the race to take place
in July, 1927. Capt. Edward S. Rogers,
who sailed Shamrock II, will be the
skipper, and Wm. Fife, designer of
Shamrock II, will be the builder.

In a baseball game at Little Rock,
between the Chicago White Sox and the
Little Rock team, two former
pitchers of the Calgary Bronks were
doing shab duty. Milt Steingraef for
the Sox, and "Stubby" Mack for Little
Rock. Four hits were made off Steen-
grafe and fourteen knicks collected
against "Stubby."

24th MAY TOURNAMENT

Manager Hill, of the Strathmore
Shiks, is very much encouraged over
the prospects for the big baseball
tournament on May 24th.

Asked by the standard what teams
were going to take part, he said it has
not yet been decided, for the reason
that they are endeavoring to accept
only the entries from teams that are
evenly matched, so that the keenest
kind of a contest will result.

In any case, said the manager, you
can say that the big tournament on
May 24th will be the best yet.

RISKO, EX-BAKER BOY, THINKS LIFE A CREAM PUFF

NEW YORK—An overgrown ex-bak-
er's boy who does not take the right
game or anything else seriously, that's
Johnny Risko, youthful heavyweight
prospector from Cleveland, who stands
of the little fraternity in all his meet-
ing on Paul Bernbach, world's light
heavyweight champion. In their ten-
round bout in Madison square garden
last night, Risko said:
"I do the fight, Danny does the
talking." Johnny told interviewers who
cornered him and his manager, Danny
Dunn, "And say, let me set you right
on my nationality. I'm not Polish, but
a naturalized American citizen."

From American Stock
"My people came from Austria.
They brought me to this country and
settled at Lake Wood, a suburb of
Cleveland, when I was six. I have two
sisters and a brother, all younger than
myself."

"Here's a chuckle for you," Dunn
broken in. "Johnny's great ambition
in life before I steered him into the
fight game was to become the world's
best baker. Now Risko is hot on the
trail of Jack Dempsey and does not
intend to loaf on this job."

He is 22, and started fighting as an
amateur. He turned pro unofficially
when he collected two dollars one
night for boxing Dixie Davis, a negro
fifth-rater. Nevertheless, he later be-
came amateur heavyweight champion
of Ohio. He had 21 professional con-
tests.

Calls Tunney Best
Having taken the punches of Strib-
ling, Turner, Delaney and Bechen,
all prominent contenders for the
heavyweight title, Risko is sure Gene
Tunney is the greatest puncher and
smartest fighter of them all.

MARY'S LAMB

Here are the latest translations of
"Mary's Lamb":
French—English
La petite Marie had le june motting.
Ze wool was blanche as ze snow.
And everywhere la belle Marie went
La june motting was sure to go.
Chinese
Moi gal had little Ba ba.
Pleasee alla sauce whitee snow.
Ba ba hopee hang, too.
Deutsche
Mary had von leedle shaf.
His vicee was covered all over mit
vie.
Und eferyvat dot Mary vent
The shaf would go along mit also.
Modern
Mary had a little lamb.
It followed her each day.
Till Mary had her tresses bobbed,
And she ran away.
What is looked upon as the most
important coaching addition to a ma-
jor league team since the close of the
1925 race, however, has been the ac-
quisition of K&J Gleason, former White
Sox pilot, by the Athletics. Gleason
energetic, aggressive and relentless as
a driver, is expected to aid Connie
Mack in developing the winning
punch for a young and ambitious team
which was under way at crucial periods
of the American league race a year
ago.

"Lefty" Groves, of Philadelphia
Athletics, has developed a slow ball
This should greatly increase his effec-
tiveness if he can control it. Failure
to control speed, curves or a slow one
has been his only drawback.

Social-Personal

Reall Rod has at last joined the
ranks of the fashionable set who have
adopted, as the latest spring vogue,
the various forms of the popular "fit."
He is now, undoubtedly, following the
advice he often handed to others, and
testing the merits of Reall products.

Miss Fleming, of Calgary, formerly
of Strathmore, spent Easter week
with Miss Marion Lilly.

Mrs. Syd Hyde and daughter return-
ed home on Sunday after having spent
about two weeks at Calgary and Banff.
While at Banff Mrs. Hyde witness-
ed the burning of Banff Springs Hotel.

Mr. and Mrs. L. S. Estand are be-
lieving congratulations upon the birth
of a daughter on Friday, April 9th,
at the home of Mrs. Mackenzie.

On April 12th Dr. Moore assisted
the stork in bringing a daughter to
the home of Mr. and Mrs. L. C. Peter-
sen, at Carleton.

Mr. and Mrs. Montzambert, of Ed-
monton, were in town last week.

F. G. Buchanan, Inspector of Public
Schools, is causing heart failure among
the new teachers of the district.

Rev. Mr. Rowe was a visitor at Olds
last Sunday, and conducted the ser-
vices in the Union Church.

On Friday evening, April 9, Mrs.
Dr. Winkler gave a very enjoyable
party at her home in Calgary. It was
in the nature of a surprise and mis-
cellaneous shower to Miss Samuella
Schnee, formerly of Strathmore, who
left for Los Angeles, California, Sun-
day, April 11, to be married to Mr.
Edward F. Mitchell, formerly of Cal-
gary. A novel feature of the evening
was a mock wedding. At the close of
the ceremony the presents were served
in a wagon draped with white,
after which a dainty buffet supper was
served.

A GOLFER'S HEAVEN

A golfer's dream of heaven is a rolling
course, I think.
Where all his twenty-footer puts roll
to the cup and sink.
There may be bunkers on it, and there
may be pits of sand,
But in them, as he plays the game, his
good shots never land.
A golfer's dream of heaven is a drive
without a slice.
An ideal that holds the line, and
lies forever nice.

Yet if there's golf in heaven, and all
golf good arrive,
And each one is rewarded with that
bleasted perfect drive;
If no one shanks a mashie, and no
apricot ever peaks,
If the golf balls fly from brassies and
from jiggers and from cleeks,—
And they carry pin and bunkers and
drop story at the cup,
There will never be an angel who can
boast that he's one up.

Then the other sainted golfer will be
good, as you and I.
He will drive as far we do, and he'll
find as nice a lie,
And we'll never see him bunkered, and
we'll never see him slice,—
And he'll sink his twenty-dotter, which
will not be very nice.
So a golfer's dream of heaven isn't one
that I would choose,
For there'd be no fun in playing if
there's no one there to lose.

SCHOOL COLUMN

The following donations to the
School Fair prize list are much ap-
preciated: Mr. M. B. Garrett, \$5.00;
Gatenby & Fisher, \$5.00 mds.
There will be a School Fair meet-
ing on Saturday, April 17th, at 2 p.m.
in the Strathmore School. The business
of this meeting will be to apportion
the prize money to the various classes.
All interested in the School Fair are
cordially invited to be present. Teach-
ers of the competing schools are respec-
tfully urged to attend.

RED DEER MEMBER IS
SERIOUSLY ILL; MAY
NEED NEW OPERATION

OTTAWA—Alfred Speakman, Red
Deer member in the House of Com-
mons, who underwent an operation
here early in the winter is still far
from well and some anxiety is felt
about his ultimate recovery. It is
thought that if he is strong enough
another operation will have to be per-
formed.

Mrs. Speakman is here with her hus-
band.

The Cape Effect Grows Popular

F. K. Miller, Manager

CONSTABLE E. W. DAVIES
WINS \$1,000 CAR
AT AUTO SHOW

Dame Fortune's bell hop paged C.P.R. Constable E. W. Davies, 1218 5th Avenue South.

Const. Davies, Great War veteran and ex-mountie, held the lucky ticket for the door prize at the Southern Alberta Auto Show. The ticket number was 2622. A small girl did the drawing and D. R. Yates verified the numbers.

It was a slip of yellow paper, extracted carefully from an inside pocket, but to the constable's surprise and pleasure it proved to be his credentials for ownership of the \$1,000 motor car offered by the Motor Show management as a door prize. The constable hasn't picked his car yet and may not take the car at all as his travelling is done on the railway where he has a pass on all C.P.R. lines. He may take cash instead.

The other prizes—also an automobile worth \$1,000—has not been awarded pending an official final check of the votes turned in for the various motor prizes. —Lethbridge Herald.

The people in Strathmore are wondering if there is a special band of legislation for different sections of the province. Recently the Golf Club intended holding a drawing with a membership ticket, valued at \$10, offered as its capital prize. Along comes Constable Tate with the mighty arm of the law in full action and the drawing is all off. Question—How can a constable stop a contest in Strathmore, and a constable be allowed to win a prize in Lethbridge?

Our office boy has been making a study of the matter, but says it is too tough for him. Next.

KEOMA

A slight printer's error was made last week. In the report of the shower to Mrs. K. McKay. It should have read "many beautiful girls" were presented to Mrs. H. McKay.

Mrs. Wynan, secretary of the Eggs and Poultry Pool, gave a very interesting talk on that subject last Wednesday evening. The meeting was well attended, and a short discussion followed.

A sale of work and concert took place at Kathryn on Friday evening. There was a large number present, and many beautiful and useful things were for sale. Miss De Long gave some delightful monologues, and Mr. Switzer rendered two fine songs. The pupils of Mr. Gervais have been congratulated on their playing, which was very well enjoyed. The proceeds, amounting to over one hundred dollars, are towards the piano.

Mrs. and Miss Ross are visiting Mrs. Clark.

Miss Clara Park is home for the holidays.

HEALTH CONDITIONS IN ALBERTA

— G —

The infant death rate in the province is now 54.3 per 1,000 births, compared with a death rate of 171 in 1913.

There are now eight district nurses working in the pioneer districts of the province. These nurses during 1925 had 1276 calls and 1164 consultations, with 865 treatments and 56 obstetrical cases.

The Cardston municipal hospital district has just announced a cash surplus in operations of \$17,500, and is now endeavoring to purchase its outstanding debenture debt of \$5,000. A by-law is to be submitted shortly for a new hospital building.

The municipal hospitals are now 15 in number, including two new districts established last year. These 15 hospitals which serve the rural districts on municipal taxation basis served 21,766 patients in 1925, including 5,435 maternity cases. All the municipal hospital districts are in sound financial condition.

CO-OPERATIVE WOOL GROWER'S MAKE BIG SALES

— G —

TORONTO, Ont.—At the annual meeting of the Canadian Co-operative Wool Growers, Limited, it was shown that in the past year the association had sold wool over three and a half million pounds of wool for well over a million dollars. This was an increase of 1,225,000 lb. over the previous year and indicated that 1925 was one of the most successful years in the association's history.

HOSIERY'S biggest dollar's worth—Monarch Green Stripe. Gives double protection against "runs". EDMONTON SHIPPED
TWO AND A HALF MILLION
RABBIT SKINS

EDMONTON, Alta.—A local shipper has within the past month consigned a quarter of a million rabbit skins in bales in New York. The skins fitted

two large cars. Most of these skins were acquired by boys who received five cents a skin from the purchaser. The skins were sold in New York for about ten cents apiece, which, after allowing one cent per skin for freight, etc., left a comfortable margin of profit for the volume handled.

Namaka—Praying service will be held at 11 o'clock and Church School will meet afterwards. Please note the change made by the Congregation.

Cheadle—Combined service will meet as usual at 2:30.
Strathmore—Church School at 11 a.m.
Public Worship at 7:30 p.m.
Song Service at 7:15 p.m.

ARTHUR H. ROWE,
Minister

CHURCH NOTES

The Annual Congregational Meeting for Strathmore, at which reports will be given and elections will take place for the ensuing year, will be held on Tuesday, April 20th, at 8 o'clock, at the church. A social hour will be held after in the basement. Everyone who is an adherent of the church or anyone else will be warmly welcomed in the absence of the minister. Mr. Whitney preaching on Sunday at Namaka and Strathmore. The roads to

Cheadle were almost impassable. Mr. Whitney is a very cultured and earnest Christian who is welcomed with pleasure everywhere.

The minister had been invited to preach at Olds on Sunday, and he enjoyed the worship of the day with friends long standing.

Easter Sunday, April 4, 1926
8:00 a.m.—Holy Communion.
11:00 a.m.—Matins, Holy Communion and Dedication of New Past.

There will be no Sunday School, but children are expected to attend the 11 o'clock service.

7:30 p.m.—Evening song and sermon. There will be one Anthem at the morning service and two at the evening service.

Flowers for decoration purposes will be thankfully received up to 5 p.m. Saturday.

A. D. CURRIE, Treasurer

LOCAL NOTINGS

The regular meeting of the Women's Institute will be held at the home of Mrs. Kennedy on Wednesday, April 14, at 2 o'clock. A report of the convention at Lebridge will be read and the book member responding to roll call giving a useful laundry hint.

Many of the teachers of Strathmore and district, who spent their Easter holidays at Calgary or other points, returned to their respective schools on Sunday.

The death of Mrs. J. A. Hefford occurred at Irricana on Monday, of last week. She was born in England and came to Canada in 1889 and was married in 1911. The sympathy of the community is extended to Mr. Hefford.

Rev. A. W. R. Whiteman, of Macleod, formerly Financial Secretary of Knox Church, Calgary, died on Monday after a short illness. He is survived by his wife and one daughter, Miss Dorothy, who is dispenser in one of the hospitals.

Mr. Paul Bartelen, who was married last Wednesday, has returned from his honeymoon, spent at Winnipeg, and Mrs. Paul will sail for Belgium on Thursday, where she will spend the next three months visiting with her mother, after which she will return to Alberta and show Paul how to look after the goose that lays the golden eggs.

Beginning next Monday W. Blackwell will inaugurate a daily express service between Strathmore and Calgary. The service will be known as the Strathmore Express.

A. Layzell, the popular auctioneer, who is generally known as Alberta's pioneer auctioneer, has at last succumbed to the fascination of the oil game, and may be found twice each day on the block at the King George Oil and Stock Exchange at Calgary. One thing sure, the "big boy" will put the sales over on the square, and the oil devotees will see a good run for their money.

bank wanted \$2,400,000, but has finally agreed to take less than \$1,500,000.

The Government is instituting an inquiry into the telephone system, and P. Miller Brownlee on Thursday. The system was handicapped by excessive capitalization, caused by lines being placed where they could not pay their way. A large part of the system being regarded as a capitalization project. If the rates had been raised in the past three years it would probably have led to decreased rather than increased revenues. The inquiry was taking into consideration capitalization and rates, but no part of the capitalization would be placed in general revenue without the consent of the Legislature.

Alberta Legislature
Adjourns

July Election Probable—Short Session In May—Redistribution Committee Fails to Agree

The Alberta Legislature adjourned on Thursday, after an eight weeks' session, having cleaned up the business on the order paper.

It would have been possible to propose, but for the Natural Resources Bill, which cannot pass third reading until agreed on by the Dominion House.

Premier Brownlee announced that the adjourned session would be held on May 5th or near that date, and that the session would be for four days.

Seventy-one bills have received their third reading during the present session. The committee on redistribution, composed of members from all sides of the House, presented a majority and minority report. The majority reported that on account of the committee not being unanimous, a general redistribution should be postponed. The Liberals on the committee presented a minority report, favoring leaving the seats as they are for another session, on account of accurate population data not being available, and arrangements having been made by the various parties for conducting the elections on the present constituency boundaries.

The Government brought in a bill on Tuesday taking out the rural sections of the Calgary and Edmonton constituencies, separating the city of Medicine Hat and the town of Redcliff from the rural sections, and creating the seats of Cypress and Ennis. The number of seats is left at sixty, as before.

C. H. Rigby, Medicine Hat, questioned the voting strength of the new Cypress constituency, losing his figures on the Provincial by-election of 1925, when only 977 voted in the district, and as a constituency. In the Dominion election of 1925, 1857 votes were cast. In the new constituency of Ennis, only 129 persons voted at the Dominion election.

Premier Brownlee said that the figures given were not false as the weather was very bad at the time of last year's elections, and many of the voters were working in other parts of the Province. The number of those entitled to vote in the Cypress poll in 1925 was 3231. 2500 votes were cast in the Redcliff constituency in 1921, as compared with 1274 in 1925. The decrease was largely due to weather, and harvest conditions. The bill was passed, the vote being 28-7.

GOVERNMENT MAY OPERATE RAILWAY

A bill was passed Thursday enabling the Government to purchase, operate, the Edmonton, Duvernay, and British Columbia Railway, by appropriating \$75,000 for capital expenditure and reconditioning, and \$1,500,000 to be used in purchasing stocks, bonds, etc. The latter amount is believed to represent the Royal Bank's minimum offer for its securities. The Government cannot operate the line without first acquiring the bank's securities. The

J. Miller has bought the lumber from R. Cowen, where the old store used to be. It is a big improvement to see this corner cleaned up.

OFFICIAL WAR PICTURES

Regarding the illustrated lecture to be given in the Memorial Hall on Friday night by G. C. McNeill, Dominion Secretary of the G.W.V.A., the Macleod correspondent of the Calgary Herald says:

Mr. McNeill, who is an eloquent orator, gave a full account of the work the Great War Veterans Association had accomplished in the Dominion since the conclusion of the Great War in November, 1918.

The lecture was interlarded with splendid photos taken during the actual war. Also, there were five reels films that were taken during the actual warfare in France, and they showed very clearly the hazardous tasks that the soldiers undertook when in the trenches.

These pictures are official war films of Vimy, Courcette, and the advance on Cambrai, and have never before been shown in Alberta.

IMPORTING CANADIAN BUTTER

(Victoria Times)

By the way some critics are talking in the House of Commons at Ottawa one would think that the Canadian Australian trade treaty had been constructed to put this country out of business and had already very nearly accomplished its purpose. Dr. J. W. Edwards declared Thursday that the arrangement was ruining the dairy industry of the country—a line of argument taken by some of his party friends earlier in the debate of the Address. This gave Hon. Mr. Meib an opportunity to remind the House and the general public that only 60,000 pounds of butter had come into the

POLES: When the evening meal is over and the dishes put away, and you settle down to store your mind with happenings of the day, comes a peacot feelin' over you, brushing from your face a frown as you scan the weekly paper from your home town.

It tells you all about who's sick and those who come and go, likewise the comin' vendue at the farm of Jabez Stowe, gets a write-up in the paper from your home town.

There ain't an entertainment or a meetin' papers too, an' I sometimes pick a novel up an' sorter skip it through; but when I want some pabulum, which nowhere else is found I unwrap the little paper from my home town.

Dominion from Australia and New Zealand since the treaty went into effect, while during that period a greater quantity of Canadian butter had been shipped to England and returned to Canada because of a shortage in the Canadian market.

ROCKYFORD UNITED CHURCH NOTES

The final meeting of our Circuit Board met last Wednesday, which was well represented, and the whole of our work came under review. We are glad to say that the work has been splendidly supported, all requirements for local purposes have been met, and \$600 sent in for Missions and other Connexional Funds.

Rev. G. Dickson, of Knox Church, Calgary, met a few of the congregation of the Rockyford Circuit last Thursday at the request of the Presbytery, to look into the matter of the dismissal of Mr. Rogers from this Circuit, and he will make a full report to the Presbytery, which meets in Calgary May 11th next. In matters of this kind the United Church takes action for the safeguarding of its Ministers.

We trust that from now on our Trail Rangers at Landsker and Rockyford, and the Beaver Cubs will meet at the regular time. Boys, please take note.

ROCKYFORD

Fred Gibson is doing a rushing business selling cars. He sold four of them last week.

Mr. L. B. Plonkin has been away on a business trip to Drumheller, returning Saturday; leaving again Sunday on a business trip to the States. He will be back in about a week. Mr. A. J. Allan is carrying on the oil business in his absence.

Mrs. Clark and daughter, of Edmonton, are visiting her daughter and sister, Mrs. W. H. Acton, for a few days. Mrs. Acton has been under the weather with the flu, but we are pleased to report that she is getting around now.

Ladies' Club, of Rockyford, met at the home of Mrs. T. Birt. Mrs. B. E. Ellis and Mrs. T. Birt being hostesses for the afternoon. A good attendance of ladies were present when the roll was called. The next meeting will be held next month at Mrs. J. B. McGuire's.

On Friday, April 9th, in the early morning, a baby girl, about one month old, was found by Mr. W. Marshman on his doorstep. We understand that the police are enquiring for the owners.

The following weddings took place at the Roman Catholic Church, Rockyford, during the week; the ceremonies being performed by the Rev. Fr. Bolts: On Tuesday, Miss Marie Kung to Mr. P. Kachol; Miss Elenor and J. Stina were in attendance. On Wednesday, Miss Margaret Reitenstein, of Standa, to Mr. Rex Gilbert Gregory; Mr. Milford Gregory and Miss Lillian Reitenstein were in attendance. On Thursday, Miss Dorothy Hendricks to Mr. Michael Heintzen, both of Rockyford. Mr. Alfonso Heintzen and Miss Varonika Hendricks were in attendance.

The Reverend Father Bolts is giving a pianoforte recital at the Palliser Hotel, under the auspices of the Calgary Musical Club, Wednesday, April 14th.

Master Rogers, of Rosebud, was the victim of a painful accident; he fell from a shot gun, fired at a dog, bit him in the leg. Fortunately the wound, though painful, is not dangerous.

Master Andrew Urwin is suffering from a sprained ankle, sustained by his pony falling with him while jumping a ditch.

Rockyford is looking very cheerful these days. Many of the principal buildings have been newly painted. The interior of the local "pub" has also been renovated. We now consume our beer amid ideal surroundings.

Farmers are expecting to start seeding early next week; the warm weather having dried up the land, which is now getting fit to work upon.

Mr. Eric Ridd is treating his seed wheat this year with sulphate of copper, instead of formaldehyde. The only drawback seems to be that the persons handling it can hardly avoid inhaling the fumes—in some cases being overcome by them.

On Friday and Saturday the Ford Motor Co. put on a demonstration of the Fordson tractor, under the auspices of the Rockyford Motors.

Big Game

Great excitement is being caused in the Poverty Hill district by reports that several of the natives have lately found the spot of a large animal, believed by the size and shape of the tracks, to be of the cat species, although no one has actually seen the maker of the tracks. Many well-known people have followed them as far as the nature of the soil, and a reasonable regard for personal safety, would permit.

Two of our most celebrated shikaris, Tom Rogers and Frank Merte, are now, we understand, organizing an expedition to trace this monster to its lair. This is very good news, as since the first discovery of the "spor", so many liars are springing up in the district, that the task of knowing which particular liar or liars, as the case may be, is the right one, is becoming, to say the least of it, daily more difficult. Added to which, if reports are to be believed upon, the size of the footprints are growing at an alarming rate, and it can easily be deduced that the maker of said prints is growing in proportion, so that unless local sportsmen get busy quickly, it is feared that it will require the services of at least a tank, if not a sixty pound battery to deal with the marauder when it is brought to bay—that is, if cats are ever brought to "bay", perhaps "pur" or "meow" would be a better word.

Frank Merte believes it to be an American cougar, which he describes as a "low animal with a large black beard." We think this description is somewhat ambiguous.

ROSEBUD

Mrs. Tills and son, James, have been ill with the flu, and Mrs. Addison, of Drumheller, is there caring for them.

Mr. and Mrs. Gordon Graham were giving a reception in the hall on their return from their wedding Wednesday night. Plates were set for ninety people. After a most delightful supper, dancing was enjoyed until the early morning. Fanny's orchestra furnished the music. On Thursday Mr. and Mrs. Graham went to their new home on the Otter place with Logan Gow.

Friends of Mr. and Mrs. David Cynn of Bassano, are sorry to learn of the death of their son, Weldon, from heart trouble on Easter Sunday.

Mrs. Lulu Forker was a Calgary visitor last week.

J. L. Cox and family have moved to their new home east of the Two-Bars.

Many are still ill with the "flu", so there has been no Sunday School at the C.X. for the past two weeks.

The roads are in dreadful condition. B. W. Brunner and family started for Calgary in their car, and were obliged to turn back after reaching Standa.

The U.F.A. held a regular meeting in their room over the Co-operative store Saturday. It is desirable that more members attend to help make the meetings interesting, and have a voice in debate.

Mrs. Carl Skipted is ill in the

Mr. W. G. Short and family are the latest victims of the flu epidemic. We trust that the flu weather will help towards their speedy recovery.

NORTHERN LIGHTS LTD.

CREATES GREAT INTEREST

We have had many inquiries about this company which was recently organized in Cereel. It is capitalized at \$2,000,000 and contemplates raising chickens on a scale never before attempted in this or any country. Its henery is located on Cozart's farm just north of the C.N.R. station where forty acres will be covered with glass. All the latest improvements in incubators, brooders, trapnets, feeders, drinkers, "investigators", etc., will be installed. Two million April-hatched day-old pullets are bought and will be here soon. These will be reared carefully to maturity; and it is expected that all of them will be laying by Oct. 1st, when the price of eggs is at the top. Every egg is already spoken for by the C.N.R. and C.P.R. dining car services. "Safe, Sure, Certain" is our motto. We take no chances. We have no expense beyond first cost of stock and buildings. As will be noticed we have three elevator men and a butcher on our directorate. There is always a lot of waste chicken feed around an elevator and butcher shop—meat and wheat. Our feed will cost us absolutely nothing. Our vice-president is the C.N.R. station agent, and he will see the shipments are properly handled. Pat O'Hoolley, the President, doesn't expect anything for his services until the cash is coming in. He might just refuse an occasional drink, however, with the stock holders. Can you beat this great offer? Shares are now \$1.00 par. They may be taken off the market any time. Take care that you are not too late! Don't send your money to Calgary for old shares. You can't see down a thousand foot hole, and you are liable to get stung. Invest your spare cash here and watch it as the chickens grow. If you had had eighteen years ago, you would be worth now something like \$1,785,456,832. We have Ford beat a mile. Throw off the yoke of labor and step out.

For Every Family - Now - the Pleasure of Owning a Car

The happy family is the family that owns a Ford. Ford ownership brings so many pleasures—pleasures, visiting, touring and the daily pleasure of constant convenience; so many benefits—fresh air, good health and escape from the summer's heat, that no family owning a car would ever again be without one.

You can enjoy these things, this summer—you can be driving your own car this weekend if you wish. The new Ford National Payment Plan offers you the opportunity to take delivery of any car you want at a lower down payment and lower monthly installments than ever before. You need not touch your savings or interfere with other plans, for these payments are so moderate that you can meet them from your income and never miss them.

This plan will be operated by the Traders Finance Corporation, Ltd. Send for Complete Details of National Time Payment Plan and Catalogue of Ford Cars.

STRATHMORE & BOW VALLEY STANDARD

HEARD ON THE STREET

Frank Miller says people are always forgetting. He says "Tony" Grogan forgot to pay his hotel bill; some forgot to get up when the land lord calls them, and then yell their heads off when they do get up. Some fellows forget to go to church, and some fellows forget to return the five bones that you recently loaned them; those last fellows are sure forgetful, good and plenty.

That Mrs. Douglas French and her Girl Guides are rehearsing a play to be given sometime in May. We understand that special arrangement has been made with Samuel French, of New York, to produce this play in Strathmore.

That class comes was proven at the King Edward Hotel. Postmaster Martin was crossing the rounds, enter the restaurant, when a commercial traveller approached him and asked for the key to the sample room. Jim turned to the day clerk, and said, "attend to the gentleman at once and Harry stepped aside at the command of the new boniface.

Fred Anderson had been reading in a newspaper where a widower with nine children had married a widow with seven children, and Fred Dunn suggests that fellow would be a good man to put through an oil masher.

Jimmie Weir says "Willie" Woo's engagement to a charming young oriental lady, whose home is in Winnipeg, may shortly be announced.

Mrs. Louis M. Cross, of Pittsburgh, Pa., 36, today is the mother of 20 children. She gave birth to her 20th child, a 12-pound girl here last night. Mrs. Cross was married when she was fifteen. All the children are alive. Frank Miller says he would like to live in Pittsburgh. Business must be good in a growing town like that.

A hobo asked a Carlsbad lady for a bite to eat. "Yes," she replied, "I'll fix you some supper if you will send and split some wood, fix that hole in the fence, tidy up the barnyard and burn that rubbish piled up at the cellar door." "Lady," said the hobo, as he started away, "I'm only a hobo, I ain't your husband," and he headed for Mike Enow's, where he succeeded in getting a handout without labor, and Leonie said he could have a room at the Chateau for a couple of days so long as Frank Miller didn't hear about it. However, unfortunately for the hobo, Frank landed down bringing the

laundry, checked up on the day's receipts, and the hobo was out of luck.

The Russian wolfie hound, owned by Mr. E. W. R. Lambert, became a bad actor on Thursday and attacked his owner very savagely. Mr. Lambert was quite seriously injured about the face and eyes, requiring the attention of medical aid. The animal has always been a great pet, and Mr. Lambert is at a loss to understand what caused the animal to change his usual temper. However, the services of Constable Tate was requested, and it was decided that the culprit's actions were unparliamentary and he was despatched to the hunting ground where bad bidders go.

Willie Woo says: "I am happy, I fall in love, maybe I marry, maybe I get divorce, maybe I get happy again."

A suggested epitaph for a good auctioneer: Going, Going, Last Call, Gone!

A Montana editor, who rather leans to yellow journalism, published an article. The business man of the town, who is in the habit of hugging his stenographer, had better quit or his name will be published. Next day 27 business men called at the office, paid their subscriptions in advance, left 42 columns of advertising to run till forbid, and told the editor not to pay any attention to these fool stories, as there was nothing to them, and yet some men are in doubt in regard to advertising pay.

Seales, the barber, says that long hair doesn't make a man look intelligent when his wife picks it off his coat.

Bobby Hamby says it is no trick to pick out the weakest hitter on a ball team. He always comes up with three or two and down.

Teacher said to class, "I have writ', that is wrong isn't it?"
Pupil—"Yes, ma'am."
Teacher—"Why is it wrong?"
Pupil—"Because you aint writ yet."

That the only excuse that a wayfarer could make who appeared before a Justice of the Peace, was that he did know he was loaded.

Salvation is free says Bill Tierney, and a whole lot of stinky church members think the preacher's service ought to be, too.

"Bod" McKechnie says one of the greatest aids in improving the complexion, is always to be in bed before midnight.

Willie—"Mamma, did we steal our new maid from some people named Berry?"

Mamma: "No, why do you ask?"
Willie: "Well, I heard Papa whisper 'Go Uncle Nat' that she was the Berries!"

That before a fellow gets married, says Landi, he is a fiance, and after he gets married he is a fiancier or a deficit.

"And do you think I would prove a satisfactory mate with whom to sail the sea of life?" he asked softly.
"Oh, so-so," the maiden responded cooly. "You'd do pretty well as mate, I guess, if you clearly understood who was captain."

Bill Tierney says the factory is now working overtime since he located the trouble with the engine, which was a dislocated "rubb" pin in connection with the fly wheel.

That there is weeping and wailing among the tobacco vases since the manufacturers swooped down on the retailers and put an end to the slaughter prices. Somebody is always taking the joy out of life. April 16th is a regular black Friday.

Fred J. Dunn says the making out of naturalization papers is getting to be one of his best positions—producing more work and less money than Jim Martin's income tax sales.

Jean Gloux is looking pretty anxious these days and can't understand why people do not get their cars all fixed up in the winter so that later and the boss would have spare time in the summer. Jean is very fond of work enjoys it every minute, but cannot reconcile the fact that it does interfere with baseball.

TWO THOUSAND
BUFFALO FROM
WAINWRIGHT PARK
— 0 —

EDMONTON—Two thousand head of
buffalo from the Wainwright park will
be shipped north this summer to join
their brethren of last year's exodus, the
only wild herd of bison on the Ameri-
can continent in the 10,000 square mil-

es of range, hemmed in by the Slave
and the Peace rivers.
The first shipment will leave Ed-
monton on June 25th. Riders on the
Wainwright range are now cutting
out and mustering the youngsters to
go north, and as with last season
(they will be shipped from Wainwright,
through Edmonton and to the Water-
ways on the A. & G. W. railway.

charged, articles sold or a collection taken, with the exception of actual church
services, will be charged for at regular advertising rates.

ARE YOU
STIMULATING INTEREST
IN SCHOOL FAIR?

The season is at hand for seeding and every encouragement should be given the
boys and girls who intend to be
contestants at the School Fair.

The School Fair stimulates an in-
terest in the home and increases the
parents' interest in school work.
It has been proven by the school
inspectors' reports from the province
in general, that wherever the school
fair has been made a success it has
simultaneously the standard of the work
done in all the departments of the
school has been materially raised.

LIVELY DEBATE
UPON THE
AUTOMOBILE DUTIES

The automobile duties resolution in-
troduced at Ottawa by Mr. Coote,
developed one of the keenest debates
of the session. He claimed that an
industry like the Ford Company which
started with an investment of \$62,500
and returned to Mr. Ford \$21,000,000
was a pretty healthy infant industry,
and might well be allowed to struggle
along by itself, thinking that probably
it could be expected to fairly well look
after its own interests.

Mr. Cahan, of Montreal, defended
the principle of protection, but thought
that it might be possible to introduce
some method to take away some of the
excess profits and return them to the
people through the Dominion Govern-
ment.

ONLY INVEST
SURPLUS SAVINGS
IN OIL SHARES

A very keen interest has developed
throughout the Province of Alberta
in the respective oil fields, and many
investors have been providing large
sums of money to carry on this work
of hunting for the liquid gold.

The game is a most precarious one
and yet it furnishes a most fasci-
nating form of speculation.
Alberta gives promise of becoming
one of the greatest oil producing dis-
tricts in the world, but not withstand-
ing that fact being the case, thousands
of small investors are doomed before
they start to lose their savings in this
mercenary line of investment.

No one should invest a single dollar
that the loss of it will cause the in-
vestor the slightest financial incon-
venience.

Many small investors have made
considerable money, but they have not
made it out of oil, rather out of other
oil investors.

As far as the Standard knows, there
have been very few dividends paid
upon Alberta oil shares.

If you have some loose change with
which you can afford to tempt the
Goddess of Fortune, invest in com-
panies with a directorate of well
known business men, upon whom you
can fairly well rely to get an even
break.

The fact that a company is drilling
within a short distance of a produc-
ing oil well simply means nothing in
the oil game. A well might be drilled
within twenty-five feet of a gusher
and turn out a duster.

FIVE HUNDRED CENTRAL
EUROPE FARM HANDS

EDMONTON, Alta.—Five hundred
farm laborers from Central Europe
were placed on farms in the Edmon-
ton district in two days, at the end
of March. In every case the flow of
immigration is being well taken care
of in Alberta and there is little or no
difficulty in finding work for those
who are unable to take up farms of
their own at the outset, either through
lack of money or lack of experience.

EDITORIAL NOTES

Hon. Percival Baker claims that the
new riding of Cypress had 3,221 names
on the last official voter's list and not
377 as quoted by C. S. Pringle.

General regret was expressed by
hundreds of people that a portion of
the famous Elton Springs Hotel had
been destroyed by fire.

The Calgary police have located one
person who has been making many
money forging or rather altering the
numbers of shares on many of the
original oil certificates.

Drumheller is the latest town to en-
ter the oil developing contest, believ-
ing that the Red Deer Valley has the
proper attitude to retain paying quan-
tities of the liquid gold.

The attempted assassination of
Masoudi has no political significance,
but was simply the work of a demoniac
Irish woman, who was formerly an in-
mate of a lunatic asylum.

Mayor Bell is very anxious to get
the electric light and power contract
submitted to the electors in order that
the work may be finished during the
early summer months.

The people are looking forward to
lively encounters between Hon. Arthur
Meighan and Hon. Chas. Dunning, in
which no quarter will be asked and
no quarter given.

Some of the Eastern opposition news-
papers are worrying about the success
of the Hon. Charlie Dunning in the
Federal arena, but his western admin-
istrators are quite convinced that he will
make good.

There must be a lot of "hop heads"
in the east when they find it advantage-
ous to bring in shipments amounting
to \$200,000 at one time. There sure
would be a lot of headaches in even
one cargo of that size.

The teachers' convention at Calgary
passed a resolution asking for an in-
vestigation into the school examina-
tion system, hoping to remedy the
unfair conditions that are known to
exist.

The Dominion Government has ap-
pointed a commission to investigate
the grievances of the maritime prov-
inces, and they will sure be busy
with all the "blame" begin to un-
load their many troubles.

The Prince of Wales just cannot
keep away from Sunny Alberta, hence
is now planning another holiday in
this province next autumn in order to
get his thrashing done in time for
Knaas markets.

Next week the Liberals will be in
Edmonton giving the would-be lead-
ers the once over. In order to get in
shape for the approaching election.
Trading horses while crossing the
stream has always been a risky deal.

P. M. Christopher, the stormy petrel
from Rocky Mountain, is surely against
royalty, no matter in what form it ap-
pears, hence he wants to cut the
Lieut.-Governor down to \$50 per year
for travelling expenses. This is the
first time Chris was ever known to
want to cut wages.

It costs the province of Alberta
\$181,806 to hold a session of the Legis-
lature. It might be in order to sug-
gest a leaner session, and the same
reason that many fraternal orders
adopted that plan in order to give
some of the legislation a chance to
get in action before it is amended.

BRING ME THE REMAINS

Do You Know?

That when placing an order for Printing you
are not making a purchase of material, but
are hiring a service. You are employing the
printer and his equipment to do a certain
piece of work. What do you get? That de-
pends on whom you hire.

Printing cannot be good without equipment,
experience, judgment, and a desire to render
prompt service.

For years many of those who know have
been buying their printing service of

Strathmore & Bow Valley Standard

PRINTERS AND PUBLISHERS

Lightning struck a huge oil tank in
California and started a ten million
dollar blaze. Probably that is the kind
of story that will be published about the
Cheadle oil fields as soon as O. G.
Craig can spare the time to develop
his oil territory, which he is keeping
under cover.

While Alberta has the whole world
watching developments in the oil
field, Manitoba keeps busy bringing
before the public the immens possibilities
in the Flin Flon field oil fields, and
launching a ten million dollar ex-
penditure as soon as a railway is built
in the mining area.

Hon. George Howland gave the doc-
tors and dentists an awful shock in
his proposed medical bill, and then
graciously withdrew it, when the pro-
fessional gentlemen promised to be
good, and look after any of their mem-
bers who did not walk the straight
and narrow path.

The northern part of the province
is very sparsely settled, the haul on
the railways is long and expensive
high, and altogether creates a real
problem for the Provincial Govern-
ment to handle in connection with
the Edmonton and Dunvegan Rail-
way, which is making an annual deficit
of \$850,000.

Dr. Charles Roberts, who lectured
in Calgary last week says his greatest
ambition is to see the consolidation of
Canada a reality. He has no aim at
promoting a mutual understanding
between the east and west and the
center, and looks forward to the time
when the seeming waste land east of
Fort William will be recognized as
Canada's richest sections.

The U.F.A. locals in many sections
are pushing the matter of tree plant-
ing, but what is most needed is for
the U.F.W.A. to take the matter up
aggressively. The "mere men" will
pass the matter along to be done at
a later date, while if the U.F.W.A. take
hold the members of the U.F.A. will
get no peace until the actual planting
has been completed.

Hon. Geo. P. Graham, chairman of
the Traffic Board, says there will be
politics in conducting the affairs of
the board, while Joseph Donat, an-
other member flashes out the news that
he is decidedly in opposition to the
Traffic Board. George had better
take Joseph to one side and put a rope
in him.

The Provincial Government is not
satisfied with the offers received to
lease the Edmonton and Dunvegan
Railway, which is now operating at an
annual cost to the province of \$850,000.
Premier Brownlee may seek aid from
Ottawa and operate through the Dept.
of Railways, under Hon. Vernon Sturges,
who knows a few tricks about the rail-
road game himself.

Something awful is going to hap-
pen at Ottawa, R. J. Deachman has
reported that the Hon. Dr. Edwards,
Conservative member for Pontiac,
had made a perfectly good speech in
which the fighting doctor had spoken
with an air of placid and calm human-
itarian and not in a partisan spirit.
Almost any day we may expect to
learn that he is boosting Prof. Davis
or R. B. Bennett.

EXPERIMENTAL FARM NOTES
 HOTBEDS AND COLD FRAMES

By use of a holed the average farmer may easily grow cabbage, tomato and other garden plants for his own use and sufficient to sell to his neighbors, who do not care to go to this trouble. In this way good wages may be realized for the time and labor expended most of which is done before work begins on the land.

The holed should be located on well drained land preferably on the south side of a building. It may be either above or below ground. The frame is made of two-inch planks with the top six inches higher on the north to catch the sun.

The banking with fresh horse manure about two feet thick on all sides and the bottom is very important. The manure should be turned with a fork until well mixed and piled near the holed for a few days until it begins to heat. It is then ready to be placed below and around the frame. Each three or four inches should be well tramped before more is added. The window frames on the top should fit snugly. Storm windows are sometimes taken from the house and used for purpose. After a few days the manure should be tramped again and at least six inches of fine garden soil added, or if the planing is to be done in boxes, less soil is necessary on the manure. Five or six days after the soil is added and the temperature has reached 30 or 35 degrees the seed may be planted. Moderate watering and ventilation are necessary for healthy growth of plants.

Cabbage and tomato seed may be planted in the holed about April 15. For further particulars write the Reott Experimental Farm for circular.

TOWN OF STRATHMORE TAX RECOVERY ACT

Notice is hereby given that if all arrears of taxes imposed in 1925 in respect of any parcel of land situated within this Town are not paid on or before the first day of July next, such land will be dealt with under the provisions of The Tax Recovery Act, 1925, with a view to obtaining a certificate of title in the name of the Town in respect of such parcel.

T. M. WEARS
 Secretary-Treasurer
 Strathmore, Alta., March 26, 1926.

TOWN OF STRATHMORE ASSESSMENT ROLL 1926

Notice is hereby given that the Assessment Roll of the Town of Strathmore for the year 1926, has been prepared, and is now open to inspection at the office of the Secretary-Treasurer of the Town, from two o'clock to five o'clock every afternoon, and that any taxpayer who desires to object to the assessment of himself or any other person must within thirty days after the date of this notice lodge his complaint in writing at the office of the Secretary-Treasurer. Dated this 12th day of April, 1926.

FRED NYE,
 Assessor

DEPARTMENT OF PUBLIC HEALTH DIPHTHERIA

This is the season in the year in which diphtheria is most prevalent and you will, therefore, be interested in the protection of your children. Our greatest protection against infectious diseases is the resistance to infection by an infective agent offered by the tissues and fluids of the body. In other words, our greatest protection is in immunity.

Nature creates this immunity. Following the attack of diphtheria the patient is immune to the disease for a time, but, when one considers that in 1923 there were in Alberta 832 cases of diphtheria and that of these 52 died, it must be apparent that immunity developed in this way is achieved at too great a cost.

As an active disease diphtheria is amenable to treatment with its antitoxin, especially when the infection is at a sufficiently early stage. But why wait for the disease with its great risks when artificial immunity may be safely developed with the assurance of protection in almost every case.

For protection against diphtheria the toxin of the germ is used. It is produced by growing the bacteria in a suitable medium. The toxin is extracted and standardized as to strength. It is treated with a chemical which prevents any toxic effect upon the body when receiving treatment, and it is finally thoroughly tested to see that it contains nothing harmful. When injected under the skin it is absorbed into the system and there stimulates the cells of the body to the production of a protective substance. The substance so produced remains as part of the body for a very considerable period. Most authorities report the shortest period as six years. Probably in many cases it will last a lifetime.

It should be noted that it takes from four to eight weeks before immunity is fully developed. For this reason in immunizing contacts, that is, anyone who has been exposed to the disease, the antitoxin is used. The immunity conferred in this way lasts only for a short time, probably four weeks at the most.

To return to toxoid immunization (artificial protection referred to in the fourth paragraph). The method of administering is simple but should be done by a doctor, nurse, or other qualified person. In the ante-diphtheric treatment two doses of about eight drops each are injected beneath the skin with an interval of a month between doses.

The treatment as outlined is absolutely safe. Even a mild disturbance is quite rare, and its effectiveness is now recognized by Public Health Officials throughout the world. A point of interest in this regard is that some of the larger American Industrial Insurance Companies, among whom are many children, are working constantly to have these children and others accept immunization treatment. Moderate resistance to the risk for their policyholders and thereby reducing the company's risk.

In this Province, during 1925, there have been 2435 children and adults immunized by this method against diphtheria. Four of these later developed very mild cases of diphtheria and of the four, two cases had been treated to diphtheria and contracted the disease within ten days of the treatment, or before even a moderate degree of immunity had developed.

Practically all this work has been done where diphtheria is prevalent. The figures, therefore, help to demonstrate its value.

Local organizations should interest themselves in this matter and endeavor to have the children of their respective communities rendered immune to this dread disease.

The doctors in most districts have given their services at a reduced rate. In some instances they have done the work free of charge where the children could be brought to them. Public Health and District Nurses will give immunity treatments free of charge to the children of their

Slats' Diary

Friday—Mr. Gilman turned down a good invitation to talk a long lecture on the best trip to the West. He says he'd had to give it up he guesses. As he told me and my son and my daughter, he is going to be busy now writing his book on his trip and he will have to wait to talk any further trips and etc.

Saturday—Billers is pretty unresponsive to his arid his gramma. She is down to there house on a visit and he says he wishes she would go on home where she belongs at because she splits her energies as he does the fire and he hasn't got round after her and clean them up after her all the time.

Sunday—I had to go to Sunday school and church all by myself today. Pa has got a spell of Tomlinson and Art Emmy is having new tires wired and my stand home with them and he is pretty near at pa on acct. of it happened to get the Tomlinson at the same time a certain girl down to the Oil Examiner office at Calgary got the same kind of sickness. But I don't know what she got sick about. But when it's over at times, she is kinder at times.

Monday—Pa says all this talk about money being hard to get is bunk. He says he's more it easy to get. I ask him how did he figure that way and he told me it didn't seem very hard for him to get all his money every week. I didn't say anything but I half to disagree with him on that because I've tried it.

Tuesday—Mr. Hix was up here this evening and he was talking and said that the one thing him and his wife are agreed on was when Easter was to come this year. And can't find out they were both wrong.

Wednesday—Sum girls is pretty festive. As they were at a dance. Chasde told the charleston and when we sat her what kind of music did they have the red. Why I don't remember whether they had any music at all or not.

Thursday—Slick Waters is finely engaged and give his girl a diamond ring. Art Emmy says the girls, people on the grid would trust Slick is the girl and Birk's the Jeweler with sold him the ring.

COMING EVENTS
